REVISED

11:33 am, May 13, 2019

- Midterm-3 is on THURSDAY during lecture of Week 10
 - Midterm-3 covers all material from weeks 7 – 10.

Klemmer – Design

- What are some approaches to design? What *is* design?
 - How does this relate to the advice to give to Michelle Obama?
 - What is prototyping? Why can it be useful?
 - What is the value of prototyping in everyday life?
 - What is the focus of the 'design at large' approach?
 - How can design show a process that can be described as simulating annealing?
- Why does Dr. Klemmer say that “Design creates Postcards from the Future?”
- 'Wisdom of the crowds' - what are examples?
 - How can technology leverage the wisdom of crowds?
- What science most benefits from lived experiences?
- What is the relation between confidence and design?
- What design features of Gut Instinct allowed the investigators to profit from input given by novices?
